Summit makes a move into Capes region home market

HOMEBUYERS and investors in Busselton, Dunsborough, Margaret River and Augusta now have another option when finding their dream home, following the expansion of Summit South West into Busselton.

The 253sqm Busselton headquarters, which opened last week, is located at 5/62 Kent Street, opposite Fig Tree Lane and will house a team of 12 construction, administrative and sales professionals to service the growing needs of the region.

A dedicated pre-start area includes a working kitchen and an array of modern tapware, basins, laminates,

handles and other fittings and finishes, meaning homebuyers can see and try everything available to them.

General Manager David Hunt said the south-western corridor of WA was experiencing high rates of growth and it was a strategic decision for them to establish in Busselton.

"In just three weeks we will be opening our first-ever display in Margaret River at Rapids Landing Estate, and so our new Busselton office again will serve as a perfect base for those clients who are looking to build in that southern corridor," he said.

A new Summit Homes office has opened in Busselton with employees Kym Hamilton, Sue Pickard, Linda Macmillan, Melissa Repacholi, Dorian Bennett, Rod Curnuck, Jo-Anne Belton, Candace Winder, Josh Fox and Glenn Mullane.
