Heavenly value on swish homes

SUMMIT Homes is tempting home-buyers with its seven deadly sins series, offering seven promotional homes inspired by Summit's most popular display models.

The special range of these seven homes, which exceed the minimum six-star energy rating requirements, are offered from \$176,995 to \$185,995.

All seven homes come with quality specifications including cavity wall insulation, stainless steel kitchen appliances and walk-in or built-in wardrobes in all bedrooms.

General manager David Hunt said the homes would suit astute buyers who were looking for quality designs, finishes and specifications without the hellish price tag.

"All homes present wicked value as the total living area ranges from 235sqm to 253sqm and four of the designs offer huge outdoor living possibilities with more than 25sqm of covered area included," Mr Hunt said.

"We have listened to our customers and responded with a series of designs which offer heavenly value for money."
