Weekend West NEW HOMES

11 June 2011

**T**his Summit Homes kitchen has been designed with a number of up-market finishes, including high-gloss cupboards and solid freestyle benchtops.

Sales and marketing manager Tim Underwood said the kitchen had a clever corner design, along with easy access to the living, dining and alfresco areas.

Highlights of the kitchen include a feature 28-course dropped ceiling, a Dorf Ingressi chrome sink mixer, soft-close drawers and doors and Ariston kitchen appliances.

Mr Underwood described the Everest's ensuite as indulgent.

"It boasts a double shower with dual Caroma track rain showerheads as well as twin

square Caroma Liano basins and Caroma Minko tapware.

"Both the shower recess and toilet are tucked neatly behind the dual vanity which cleverly creates a more open ensuite. The whole area is bathed in light through shutters which frame a window overlooking a private courtyard."
